SUMMARY

This newspaper index report demonstrates editorial coverage trends in seven prominent Pakistani newspapers (Pakistan Observer, The News, Business Recorder, Daily Times, Dawn, The Express Tribune and The Nation) during the month of April 2025, revealing various topics at national and international level. This report is divided into three sections: editorial coverage at national level, global level and combined with minimum occurrence of 15 entries on each subject. The indexed data highlights that 30 topics at national and 25 topics at international level were covered in these seven newspapers (**Figures 1 and 2**). However, we employed criteria (occurrence of minimum 15 times of a topic) to highlight the major focus of these newspaper. As per this criteria, there was a strong focus on domestic issues, with 15 topics from Pakistan dominating compared to three international topics (**Figure 4**). On the **national level**, major editorial attention was given to Economy and Government (46 each), Power and Natural Resources (45), Politics and Education (35 each), followed by International Relations (28), War and Security (27), Environment (26), Terrorism and Extremism (24), Current and Social Issues (24 and 19), Business/FDI (19), Law and Judiciary (16), and Science & Technology and Biography (15 each). These topics reflect a strong focus on governance, economic performance, security concerns, and socio-political developments within Pakistan. On the **global context**, three subjects crossed the threshold: The **United States** (74 entries), **India** (58), and **China** (24). The United States is on the top at global level due to its dominating roles in South Asia, especially strategic relationship with Pakistan and the recent role towards de-escalation between Pakistan-India war. The surge in India-related coverage is linked to the escalation of tensions after the Pahalgam attack in Indian-occupied Kashmir, leading to a Pakistan-India war. Overall, this index report presents a media narrative deeply rooted in national priorities, yet shaped significantly by global geopolitics and regional conflicts.

Newspapers' and Their Number of Entries

The editorial report of seven major Pakistani newspapers in English language provides trends and patterns publishing in these selected newspapers (**Data attached as Annexure – I**). In April 2024, a total of 819 editorial articles were indexed across seven prominent Pakistani English-language newspapers (Table 1). The **Pakistan Observer** led in editorial contributions with 143 entries, accounting for 17.46% of the total coverage. This was followed closely by **The News** (16.37%) and **Business Recorder** (15.87%), both reflecting consistent editorial engagement with current affairs. **Daily Times**, **Dawn**, and **The Express Tribune** each contributed meaningfully, with shares ranging between 13–14%, indicating a relatively balanced distribution among mid-tier newspapers. **The Nation**, while still active, had the lowest editorial frequency (10.13%), yet maintained a notable presence in shaping public discourse.

Table 1: Selected seven newspapers and their number of entries included in the index

Newspaper	Frequency	Percentage
Pakistan Observer	143	17.46%
The News	134	16.37%
Business Recorder	130	15.87%
Daily Times	113	13.80%
Dawn	108	13.19%
The Express Tribune	108	13.19%
The Nation	83	10.13%
Total	819	100%

Newspapers Editorial Coverage at National Level

The indexed newspapers editorial entries provide a comprehensive overview of the topics covered in the Pakistani context, highlighting the diversity of issues addressed across seven major newspapers (**Data attached as Annexure – I**). Overall, it covers 30 various topics at national level in these seven Pakistani newspapers in English language (Figure 2).

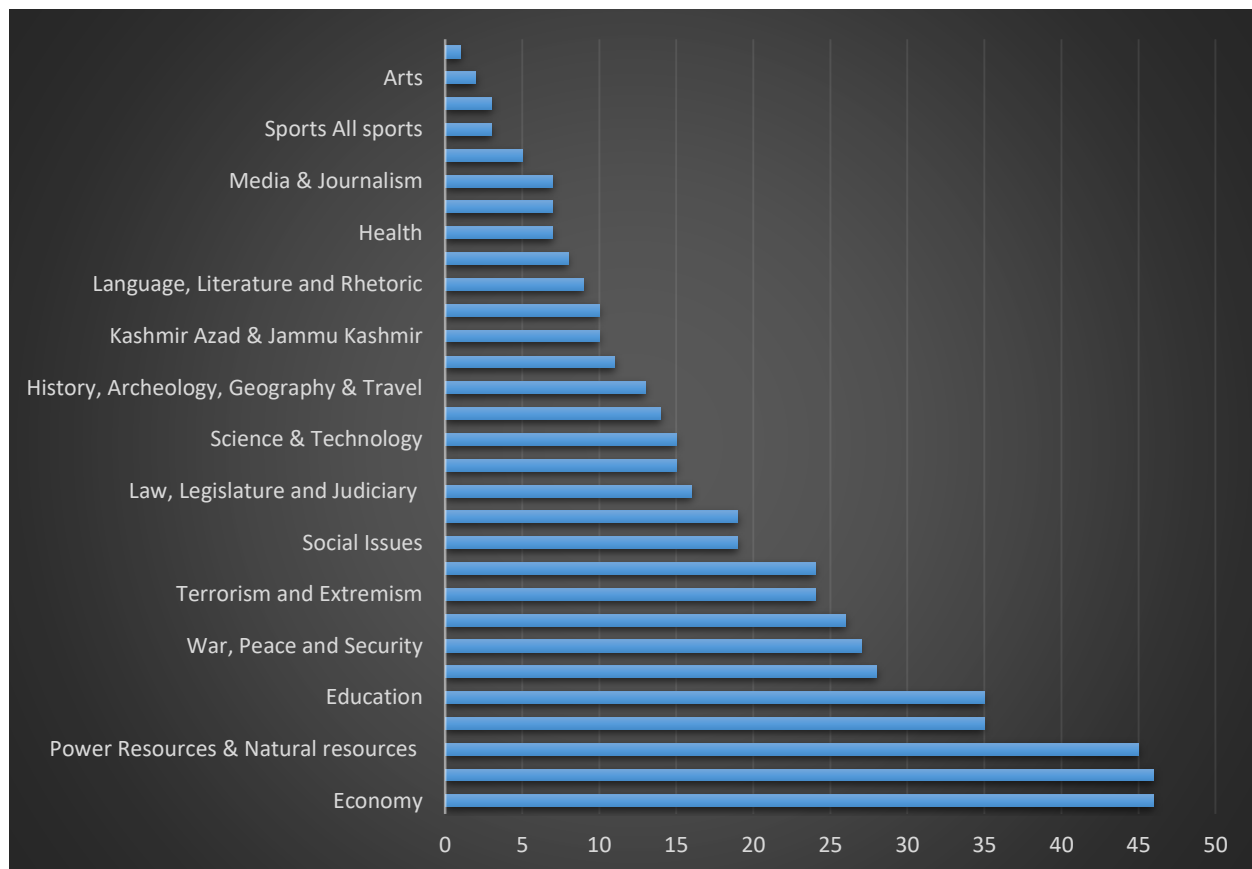

Figure 2: Newspapers coverage on various topics at national level

The editorial landscape of Pakistani newspapers in April 2024 exhibited a strong concentration on issues tied to governance and national development. For example, **Economy** and **Government** emerged as the top-priority topics, each securing **46 entries**, followed closely by **Power Resources & Natural Resources** (45 entries). This indicates a continued editorial emphasis on economic reforms, energy crises, and administrative performance. Subjects like **Politics** and **Education** (35 entries each) also featured prominently, highlighting discussions on political dynamics and reforms in the education sector. Meanwhile, issues of **International Relations** (28 entries) and **War, Peace, and Security** (27 entries) reflect Pakistan's strategic concerns and global positioning. One of the major reasons of emerging 'war, peace and security' is linked with the Pakistan-India war after the Pahalgam terror attack.

Environmental concerns and national security received balanced attention through **Environment, Terrorism and Extremism**, and **Current Issues** (24 entries each). The presence of **Social Issues** and **Foreign Direct Investment** (19 entries each) underscores the newspapers' attention to societal well-being and economic integration. Lesser, yet important, coverage was given to **Law, Science & Technology**, and **Biography**, each garnering 15–16 entries. Themes such as **Human Rights**, **Media**, **Women's Rights**, and **Kashmir** were present but less emphasized, suggesting room for broader coverage. Notably underrepresented were **Arts, Sports, Civil Service**, and **Accountability**, which received fewer than five entries each. This indicates lesser focus of media-writer. It also revealed that these topics may require more visibility in the editorial sphere to foster a well-rounded national discourse.

Newspaper Editorial Coverage at Global Level

The international-level coverage across the indexed newspapers provides a detailed insight into the global focus and priorities reflected in the media. Overall, there are 25 various topics have been covered at global level in these seven Pakistani newspapers in English language (Figure 3). In April 2024, Pakistani English newspapers prominently focused on global issues, with a noticeable surge in coverage related to India. A total of 58 entries were recorded on the subject of “India Politics, Policies, Conflicts, Foreign Affairs,” which marks a significant increase compared to January (16 entries), February (19 entries), and March (30 entries). This spike is largely attributed to the Pakistan-India war situation that emerged following the Pahalgam terrorist attack in Indian-occupied Kashmir. The heightened tension brought India to the forefront of media attention throughout the month. The United States remained the most covered global entity, with 74 entries. This continued media focus reflects the U.S.'s influence on global geopolitics, international diplomacy, and strategic decisions impacting South Asia and the broader Muslim

world. China followed with 24 entries, underscoring its role as a key player in regional and economic developments, particularly in relation to Pakistan's strategic interests and CPEC.

Other important subjects included the world economy (13 entries), terrorism and extremism (12 entries), global politics (12 entries), and world international relations and foreign policies (12 entries). These topics reflect an ongoing interest in the interconnectedness of global power dynamics, economic trends, and the international response to terrorism.

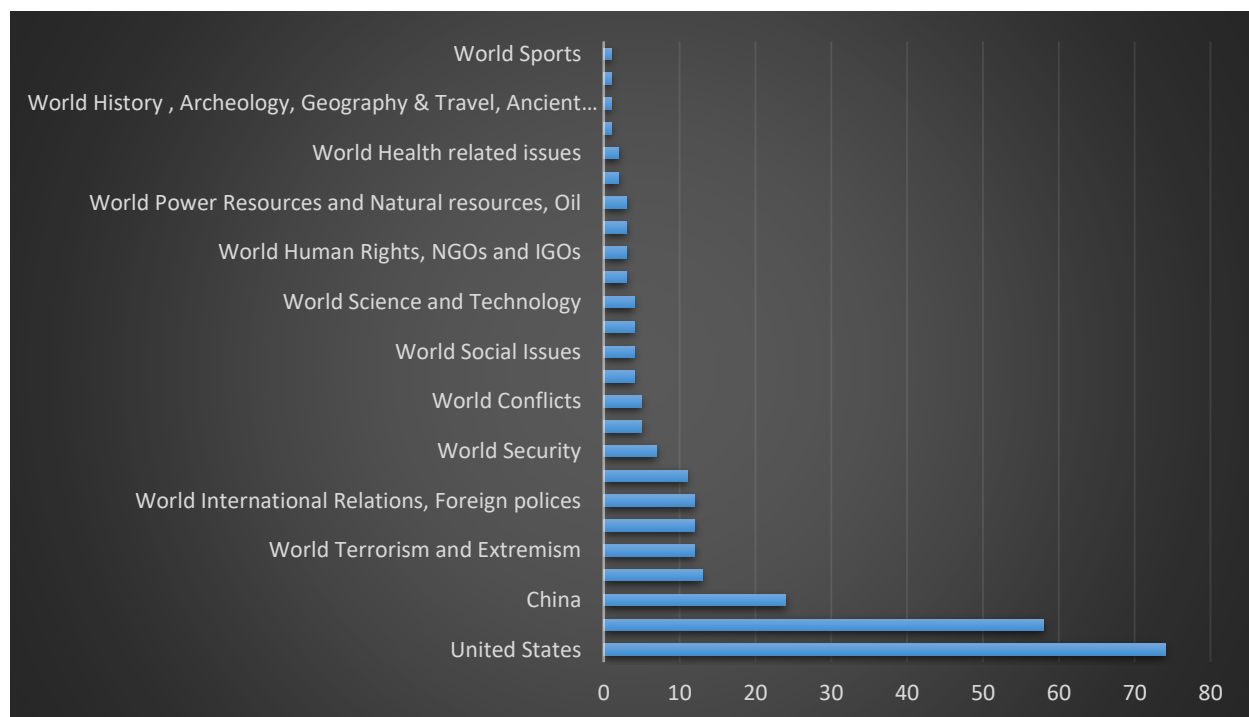

Figure 3: Global coverage areas or topics in Pakistani English newspapers

Coverage on the OIC, Islamic world conflicts, and narratives such as the West vs. Muslim world appeared 11 times, indicating a continued concern in Pakistani media over the representation and treatment of Muslim-majority regions in global affairs. Issues of world security were addressed in 7 entries, while global financial institutions such as the IMF and World Bank appeared in 5 entries, alongside topics on global conflicts. There was modest attention to topics like social

issues, nuclear programs and deals, science and technology, and current world affairs (each receiving 4 entries). Environmental protection strategies, human rights, international organizations, and business opportunities received minimal coverage (3 or fewer entries), while subjects like comparative religions, health, education, history, and sports remained marginal in the global discourse of the newspapers reviewed.

Overall, the coverage highlights a strong regional focus driven by current events, while still maintaining engagement with broader global themes that influence Pakistan's geopolitical, economic, and security landscape.

Major Publishing Trends (combing both National and Global) in Pakistani Newspapers

The combined trends (with minimum frequency of occurrence = 15) from the indexed topics in Pakistani and international contexts reveal significant patterns of media focus and public discourse, highlighting areas of national and global interest. It highlights a notable disparity in focus, with a strong emphasis on domestic issues compared to global ones. Out of the 18 topics meeting the minimum frequency threshold of 15, 15 entries pertain to national contexts and three from the international context.

Among domestic concerns, **Economy** and **Government** were the most recurrent themes, each cited 46 times. This reflects a strong public and media focus on Pakistan's internal financial conditions and governance challenges amid growing socio-political instability. Closely following was **Power Resources & Natural Resources** with 45 entries, suggesting a continued emphasis on energy crises and resource management issues. **Politics** and **Education** each appeared 35 times, pointing to public interest in electoral developments and the ongoing debates on reforms and quality in the education sector. Issues such as **International Relations** (28), **War, Peace and**

Security (27), **Environment** (26), and **Terrorism and Extremism** (24) reflect the country's entanglement in regional instability, climate concerns, and the persistent threat of militancy. **Current issues** (24 entries) and **Social issues** (19 entries) point to dynamic discourse around evolving political, economic, and societal shifts. The inclusion of **Business and Foreign Direct Investment (FDI)** with 19 mentions reveals sustained media interest in economic revival strategies and foreign engagement. Legal and institutional concerns also appeared through **Law, Legislature, and Judiciary** with 16 entries, indicating scrutiny of the legal landscape and justice system. Finally, **Biography and Autobiography** and **Science & Technology**, each with 15 entries, underscore growing public interest in personal leadership narratives and innovation-led development, possibly as a reflection of societal aspirations for progress and change.

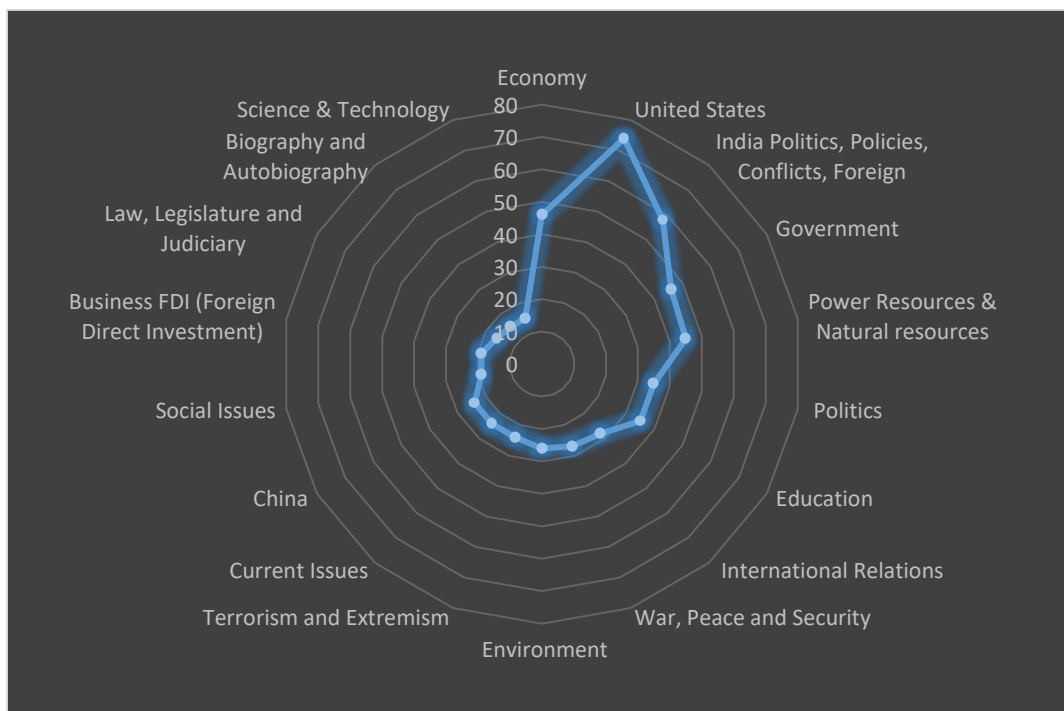

Figure 3: Major publishing trends in Pakistani newspapers (with minimum frequency of 15)

The **United States** remained the most reported international subject with 74 entries, illustrating its continued global significance and influence on Pakistan's foreign affairs, defense,

and economic policies. Similarly, **India's politics, conflicts, and foreign relations** drew considerable media attention with 58 entries, (a substantial rise from previous months) mainly triggered by the recent Pakistan-India war following the Pahalgam terrorist attack in Indian-occupied Kashmir. Internationally, **China** (24 entries) remained a prominent subject owing to its strategic partnership with Pakistan, especially in the context of CPEC and regional power balancing.

Overall, these 18 dominant subjects provide a comprehensive picture of how national and international developments were prioritized and perceived by mainstream English editorial pages of leading newspapers in Pakistan during the month of April 2024.

ANNEXURE – I

Newspaper Index for the Month of April 2025
